

As a resident of a local community serviced by K-Love, my family life has been improved by the music they provide. I don't need to worry about language, and poor morals that come through like on other radio stations. The effect on the local community if K-Love were to be displaced by an LPFM broadcaster may be that children and teens will be further exposed to vulgar language, sexual innuendos, poor judgement in material played on the LPFM station. I believe that the service provided by K-Love is a better choice for the public interest to help keep America cleaner, stronger and to continue to build faith and hope for a better tomorrow. Don't let anymore explicit, degrading, and immoral "music" be played through an LPFM. We already have enough of that on cable!
